

SUPER MAX

5in1 HAIR & HOME

Complete Lice Elimination Kit

2X FASTER LICE KILLING ACTION vs. leading pesticide hair treatment: RID® SUPER MAX Advanced Lice Treatment Shampoo kills lice, super lice, and their eggs without the use of harsh chemicals or pesticides. Super lice are lice that have developed a resistance to common pesticide-based treatments. RID SUPER MAX Advanced Lice Treatment Shampoo kills lice 2X faster than the leading pesticide-based hair treatment.*

INSTRUCTIONS FOR HAIR

RID SUPER MAX Advanced Lice Treatment Shampoo & RID Lice Comb Intended Use: To kill and remove super lice, lice, and their eggs in infested adults & children from 1 year of age and older.

STEP 1: APPLY RID SUPER MAX Advanced Lice Treatment Shampoo to dry hair, completely saturating hair, and scalp. Use a towel to cover eyes and exposed skin areas. Massage from the roots to the tips, paying particular attention to the area behind the ears and the hairline behind the back of the head. Leave the shampoo in the hair for **10 minutes (no longer)**. In the case of long hair, pin the hair up away from skin.

STEP 2: WASH by applying some (lukewarm) water to the treated hair after 10 minutes, as it is important for the hair to be wet when shampooing. Work up a lather (foam) and rinse thoroughly using plenty of (lukewarm) water. Rinse until all shampoo has been removed. No additional washing step with a regular shampoo is required.

INSTRUCTIONS FOR HOME CONTROL

RID SUPER MAX Home Lice Spray Intended Use: Kills super lice & eggs on mattresses, furniture, and other non-washable surfaces. It is non-staining to water-safe fabrics and surfaces and safe to use in homes with pets.

Super Lice are lice that have become resistant to conventional pesticide treatments (permethrin and pyrethrin). RID Super Max Home Control Spray uses nature-based active ingredients that are effective against lice, super lice and eggs as well as bedbugs and dust mites.

READ ENTIRE LABEL BEFORE EACH USE
Before You Use: Test the product on an inconspicuous area, allow to dry and check for staining or discoloration.

KEEP OUT OF REACH OF CHILDREN

DIRECTIONS FOR USE:

- Shake well before use. Remove protective cap, hold container upright with nozzle away from you. Depress valve and spray approximately 8-10 inches from the object or area being treated for 2 seconds. Over application may cause damage. Allow sprayed articles to dry before use. Can repeat daily if treatment required.
- Carpet - Spray in a sweeping motion over entire carpet until damp. Use an overlapping pattern to ensure total coverage. After application, brush or broom the carpet to ensure deep penetration. Allow carpet to dry before reentering. Use fan to accelerate drying. Vacuum entire area once dry. Since vacuuming stirs dust up in the air, those with allergies should have another person vacuum or should wear a dust mask and use vacuum with a high efficiency particulate (HEPA) filter.

ENHANCED WITH LICE DEFENSE INGREDIENTS: RID SUPER MAX Advanced Lice Treatment Shampoo contains a uniquely effective combination of ingredients that help keep new lice away from treated hair for up to 3 days. If lice remain in the home environment after treating hair, they can survive 1-2 days away from a human host. RID SUPER MAX Advanced Lice Treatment Shampoo helps keep those lice away.

STEP 3: COMB to remove lice and eggs. Part the hair into sections and comb one section at a time. Place the teeth of the comb as close as possible to the scalp and comb away from the scalp to the end of the hair. Use clips to pin back each section of combed hair. Clean the comb during use by wiping onto a tissue. Discard the tissue into a sealable plastic bag. Discard the sealed plastic bag.

Check hair after 7 to 10 days. If lice or eggs or present, repeat steps 1-3.

Usage may vary Usage guidelines

Hair Length	Applications Per Bottle
Short	Up to 4
Medium	2-3
Long	1-2

SHAMPOO INGREDIENTS:
hydrogenated dodecane, MIPA laureth sulfate, laureth-4, propylene glycol, helianthus annuus (sunflower seed) oil, isododecane acrylate copolymer, fragrance

- Mattress - Spray top, bottom, and sides of mattress until damp, pay particular attention to tufts and seams. Allow mattress to dry before using. Cover with mattress cover and sheet. Do not use without a mattress cover. Do not use product on sheets or pillowcases.
- Lice and Lice Eggs (Nits): Spray only on non-washable surfaces and furniture that cannot be either laundered or dry cleaned, including bed frame and mattress.
- Bed bugs: Spray non-washable surfaces and mattress, particularly around tufts and seams. Take bed apart and spray into all joints. Treat baseboards, moldings, and floors.
- House Dust Mites (Dermatophagoides spp.): Treat carpet or mattress according to the directions specified above.

PRECAUTIONARY STATEMENTS.
CAUTION: Avoid contact with skin and eyes as product may cause irritation. Use in a well-ventilated area. Avoid breathing mist, vapor, and spray. Wash thoroughly with soap and water after handling this product.

FIRST AID: If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first five minutes, then continue rinsing eye. If irritation persists, call a physician for treatment advice. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. If irritation persists, call a physician for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

PLUS HOME LICE SPRAY: RID SUPER MAX Home Lice Spray kills super lice & eggs on mattresses, furniture, and other non-washable surfaces. It is non-staining to water-safe fabrics and surfaces and safe to use in homes with pets.**

Complete Kit includes: RID SUPER MAX Advanced Lice Treatment Shampoo, RID comb, and RID SUPER MAX Home Lice Spray.

WARNINGS:

- For external use only.**
- Do not use if you have ever had an allergic reaction to any of this product's ingredients.
- Do not use if scalp is very irritated or injured.
- Do not use longer than directed or overnight while sleeping.
- Do not use a covering over treated hair like a shower cap or foil.
- Keep treated hair away from fire or other hot objects. Do not smoke during use or treatment.
- Avoid contact with eyes and mucous membranes (mouth and nose). In case of eye contact, rinse thoroughly with water.
- If the treatment is applied in the evening, make sure the hair is completely dry before going to bed.
- Stop use and ask a doctor if signs of rash or irritation occur.
- If pregnant or breast-feeding, ask a healthcare professional before use.
- Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

FLAMMABLE: Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

STORAGE AND DISPOSAL: Store at room temperature away from children and pets and away from open flame. Pesticide disposal and container handling: do not puncture or incinerate! If empty: Place in trash or offer for recycling, if available. If partly filled: Call your local solid waste agency for disposal instructions.
